

NEWS RELEASE FOR IMMEDIATE RELEASE

RAPS selects ForeignExchange as translation provider

Company's regulatory affairs expertise key to selection

Newton, MA, February 15, 2010 – After an extensive selection process that included several other translation companies, the Regulatory Affairs Professional Society (RAPS) selected ForeignExchange Translations, Inc. to translate its *Fundamentals of Japanese Regulatory Affairs* handbook. ForeignExchange's focus on the life sciences and its background in translating regulatory documentation were key factors in the company's selection.

RAPS publishes books that help regulatory professionals navigate the complex labyrinth of international drug and device approvals. The books are also used as study guides for the Regulatory Affairs Certification (RAC) exams. RAC is the only professional certification available in the healthcare sector. RAPS provides RAC for US, European Union, Canadian and General Scope regulatory affairs. The forthcoming Japanese regulatory affairs book will further enhance its offerings.

Fundamentals of Japanese Regulatory Affairs was originally written in Japanese. In order to provide an English edition, RAPS set out to find a suitable translation provider who could not only handle the language requirements but also the specific subject matter of drug and device regulatory affairs. After screening several agencies, through an RFI process and test translations, RAPS made the decision to select ForeignExchange. Company president Andres Heuberger said, "Affirmation from a respected organization like RAPS reinforces that ForeignExchange is accomplishing its mission to be recognized as the leader in medical translations."

The project has started and the English edition of the handbook should be available in mid-2010.

About the Regulatory Affairs Professional Society (RAPS)

The Regulatory Affairs Professionals Society (RAPS) is the leading worldwide member organization devoted to the health product regulatory profession. With more than 12,000 individual members from industry, government, research, clinical and academic organizations in more than 50 countries, RAPS develops professional standards for knowledge, competency and ethics and is the leading source of information on the scope of practice of regulatory professionals and their critical roles in the healthcare products sector.
